

Better health. Better experience.
Lower costs.

Healthier You offers hospitals and immediate care clinics throughout Wichita so you can choose convenient care that's best for you and your family.

There are a few providers, such as Wesley, that are no longer in-network. Seeking care at an out-of-network facility will likely result in higher out-of-pocket costs.

Choose an in-network facility to **maximize your benefits and save out-of-pocket costs.**
